Instructions

Your patient is applying for a CPP disability benefit. To help us determine if they are eligible, please complete this form on their behalf. Note that we may contact you if we require additional information.

Under CPP legislation, Service Canada is responsible for deciding if a person is disabled. According to the legislation, a disability must be a mental and/or physical impairment(s) that is both **severe and prolonged**.

- **Severe** means that a person has a mental and/or physical disability that regularly stops them from doing any type of substantially gainful work/occupation; **and**
- **Prolonged** means that the disability is long-term and of indefinite duration **or** is likely to result in death.

The legal test for CPP disability is one of medical impairment and employability. In other words, does the severe and prolonged disability prevent the person from working at any job? To decide if the disability meets this legal test, Service Canada looks at the combined impact of:

- the objective medical findings;
- the functional limitations, as reported by both the patient and their health care professional; **and**
- the person's age, education, and work experience.

Access to personal information

Pursuant to the *Privacy Act*, upon written request, Service Canada is obligated to provide the applicant or their representative with any information or records, including medical reports, contained in their file (Personal Information Bank ESDC PPU 146). For more information regarding the *Privacy Act*, you can consult *Info Source* at www.canada.ca/en/employment-social-development/corporate/transparency/access-information.

Compensation

To compensate you for completing the report, Service Canada will pay up to \$85 directly to you. To ensure prompt payment, submit the completed report and your invoice as quickly as possible.

Your invoice must include the patient's name, address, and identification number. For income tax purposes, your invoice must also include one of the following:

- your Business Number (BN); **or**
- your Goods and Services Tax (GST) / Harmonized Sales Tax (HST) number; **or**
- your Social Insurance Number (SIN).

Without the appropriate numbers, your medical invoice cannot be processed.

Without this information, you and/or Service Canada may be subject to a fine as noted in the *Income Tax Act*, paragraph 221(1).

Submitting the Medical Report

Please return the completed report directly to Service Canada. If you send us the report on your patient's behalf, please advise them.

A delay in the completion of this medical report may affect your patient's entitlement to benefits due to lack of medical information.

If you have any questions, contact Service Canada at 1-800-277-9914 from Canada or the United States (TTY users: 1-800-255-4786) or 1-613-957-1954 from all other countries (we accept collect calls).
